HOW TO APPLY & SELECTION PROCESS

Students cannot apply individually. To participate in the Erasmus+ KA171 (non-EU) mobility, **you must contact your home university's International Relations Office (IRO), which is responsible for the selection and nomination process.**

If you meet the eligibility requirements outlined in this call, please contact your IRO as soon as possible. Your university will carry out an internal pre-selection and nominate candidates.

Step 1 – Nomination by Partner University (by 10 November 2026)

- Each partner university may nominate a maximum of 2 candidates, plus 2 reserve candidates.
- Nominations must be submitted through the official online nomination form (one submission per candidate, including reserves), completed exclusively by International Office / IRO staff. **The nomination form must not be published or shared with students.**
- After submitting the form, partner universities must send one email to icm@unich.it, attaching one single PDF file per candidate containing all the documents listed below. All documents must be in English or Italian and combined into a single PDF attachment for each candidate:
 1. Copy of a valid passport
 2. Transcript of Records + Certificate of Enrolment at the Partner University (AY 2026/2027)
 3. **Language certificate/attestation** (Italian or English, minimum **B1 CEFR**), issued by a recognised institution or via the [European Commission EU Academy platform](#), **mandatory at the time of application**
 4. A detailed description of the student's research topic (**for PhDs**).

The deadline for both nominations and complete application documents is 10 November 2026. No extensions will be granted. The nomination form will close automatically on that date. Late or incomplete applications will not be considered.

Step 2 – Evaluation and Final Selection (by 15 November 2026)

All nominated applications will be evaluated by a Selection Committee composed of members of the UdA ICM Office, based on academic merit, the overall quality and completeness of the application, and the number of applications received from each partner university. The final selection will be completed by 15 November 2026.

Step 3 – Acceptance & Next Steps (selected students only)

Selected students and their home universities will receive:

- An **Application/Acceptance Form** to be completed by the student
- Detailed instructions for the **University procedure** (visa application)
- Further information regarding course selection and mobility arrangements

The University platform closes on 30 November 2026. Several administrative steps must be completed before this date, which is why the nomination deadline cannot be extended. Selected students requiring a visa must complete the mandatory University pre-enrolment procedure for their visa application; without completing this procedure, they cannot undertake the mobility.

The second-semester course lists will be finalised a few weeks before the semester begins and shared with selected students. A Learning Agreement / Study Plan is NOT required at the application stage.
